

Preliminary Scheme o Project Proposal

2WOMEN

17 Abril 2025

1. Problem Definition

Problem Definition

Model Objective

Relevance of the Problem

2. Model Classification

Justification for the Chosen Technique

3. Model Elements Identification

- Known parameters (input data):
- Decision variables:
- Objective function(s):
- System constraints:

4. Initial Implementation Design

Tools and Languages

Code Structure

5. Project Schedule

6. Academic Integrity Commitment
